GUARD #1: Halt! Who goes there?

ARTHUR: It is I, Arthur, son of Uther Pendragon, from the castle of Camelot. King of the Britons, defector of the Saxons, sovereign of all England!

GUARD #1: Pull the other one!

ARTHUR: I am. And this my trusty servant Patsy. We have ridden the length and breadth of the land in search of knights who will join me in my court at Camelot. I must speak with your lord and master.

GUARD #1: What, ridden on a horse?

ARTHUR: Yes!

GUARD #1: You're using coconuts!

ARTHUR: What?

GUARD #1: You've got two empty halves of coconut and you're bangin' 'em together.

ARTHUR: So? We have ridden since the snows of winter covered this land, through the kingdom of Mercea, through-

GUARD #1: Where'd you get the coconut?

ARTHUR: We found them.

GUARD #1: Found them? In Mercea? The coconut's tropical!

ARTHUR: What do you mean?

GUARD #1: Well, this is a temperate zone.

ARTHUR: The swallow may fly south with the sun or the house martin or the plumber may seek warmer climes in winter yet these are not strangers to our land.

GUARD #1: Are you suggesting coconuts migrate?

ARTHUR: Not at all, they could be carried.

GUARD #1: What - a swallow carrying a coconut?

ARTHUR: It could grip it by the husk!

GUARD #1: It's not a question of where he grips it! It's a simple question of weight ratios! A five ounce bird could not carry a 1 pound coconut.

ARTHUR: Well, it doesn't matter. Will you go and tell your master that Arthur from the Court of Camelot is here.

GUARD #1: Listen, in order to maintain air-speed velocity, a swallow needs to beat its wings 43 times every second, right?

ARTHUR: Please!

GUARD #1: Am I right?

ARTHUR: I'm not interested!

GUARD #2: It could be carried by an African swallow!

GUARD #1: Oh, yeah, an African swallow maybe, but not a European swallow, that's my point.

GUARD #2: Oh, yeah, I agree with that...

ARTHUR: Will you ask your master if he wants to join my court at Camelot?!

GUARD #1: But then of course African swallows are not migratory.

GUARD #2: Oh, yeah...

GUARD #1: So they couldn't bring a coconut back anyway...

[clop clop]

GUARD #2: Wait a minute - supposing two swallows carried it together?

GUARD #1: No, they'd have to have it on a line.

GUARD #2: Well, simple! They'd just use a strand of creeper!

GUARD #1: What, held under the dorsal guiding feathers?

GUARD #2: Well, why not?

Why you should play ET:

"This is not a game. It's a life changing experience. Before I played the game, I hit rock bottom. I was in pain and had a severe case of depression until I played this masterpiece. Jesus himself gave us this gift. The game is an immersive open world adventure that will make you feel like a kid again with its incredible world and environment. The atmospheric story will drag you in and leave you speechless. The impressive orchestral soundtrack is something that you will want to listen to for the rest of your life. The graphics are so good that the human eye has not evolved enough to see them at their best. And the controls and game-play are the definition of perfect. It's insane to think about how ahead of the time it was. Atari really knew what they were doing back in @t would think that if something like this was from over 30 years ago, then we should be such an advanced society. But that is not the case, because humans are flawed. Companies such as Sony, Microsoft, or Nintendo are full of idiots that can't make any good games. The gaming industry crashed because we humans knew we didn't deserve this masterpiece. Howard Scott Warshaw was able to create perfection in just 5 weeks. When it was buried, New Mexico replaced Israel as the new holy land. I don't know what else to say about something better than perfection. ~/10" -Liam Curtin

"This game is THE ABSOLUTE BEST thing in existince! It is WAY better than the movie! It's an open world game where you have to find home, but it has so many amazing adventures and side quests along the way! You can get into intense battles with the people hunting you down, and help other E.T's to get home, too! The graphics and visuals are amazing, and the only music I listen too is the amazing soundtrack! Overall, this game is a must-play, and way underrated! 100/10!!!!" - Holden Ellis

"Still holds up beautifully to this day. The media will tell you that Super Mario Bros. saved the gaming industry from the crash of '83, but I tell you it was E.T. the Extra-Terrestrial. The game has no sense of direction, great for creating your own stories. A true sandbox. All while a timer looms overhead counting down, which is a deep metaphor for society. With a two-tone colour scheme, this game perfected minimalism before it became popular. I have spent countless days grinding this game, loving every second of it. This game didn't perfect its genre, it created it." -Arie Koning

"This video game changed my life, my father who has recently passed away after discovering the cure to cancer was assassinated. I was in a deep saddened state of depression, he left me with money and the house that I always loved but it just wasn't the same without my father. Recently my Uncle James left me with this Game. It had a note attached to it saying "To my loving son, Payton. -Love Dad". I spent days trying to get an atari and when I finally got my hands on one it was at a large price of 200. I popped the game in and started playing. The media wants you to think that Super Mario Bros is the better game, but you don't get attached to it like you will to this 5/5." -Payton Sayles

"My great grandfather got me this game when it first came out and I thought it was absolute garbage. Now as an adult I replayed it, and I must say it's one of the best games out there. The story and gameplay are both just so good. I felt myself invested in the characters in such a short amount of time. Not to mention the difficulty is much harder than dark souls or any other game like it. Truly in a league of its own. Kids these days don't know what a good game is. They think games like the last of us or red dead redemption are good. But they are fools. Nothing comes close to E.T. and nothing ever will. Rest in peace grand papa. Thank you for opening my eyes to the beauty that is E.T." -Nathan Elder

"This game is legendary. It inspired me to confese to my crush in high school. It showed me how to make huge buildings to help make the future today. This game cured my depression and my dogs cancer, I love this game! I give this game a perfect 11/10 It showed me the basic format that every game in general should have! TAKE THAT bad word Breath of The MILd! It changed me from a cursed BOOMER to an educated person. THIS GAME IS FOR TRUE GAMERS make one wrong move you get stuck in a pit forever, that is a new level of difficulty. 11/10 11/10 11/10" -Lennox Watts

"This is awesome. This is such an awesome game that it has 1960s graphics and everyone liked it so much they put it in landfills. Also This is the game which caused the bankruptcy of @t and it got released the criticism shot up like a rocket! Everyone love this game that like me they smashed it with a hammer on their kitchen table. DO NOT BUY THIS BUY HYRULE WARRIORS AOC" -Daniel Lehman

"10/10 Video game, Before I played this, I was depressed and sad, this game changed my life for the better. The life provoking Speech's by the main and even side characters. Aside from the life changing dialogue, it has some great graphics and mechanics, although, the game is a bit long. In conclusion, this is a god send that will change your life for the better. Would recommend." -Caleb Lemar

E.T

is

Love,

E.T

is

Life" -Viktor Gergov

"One of the best video games of all time, I rate it a 10/10 that's how good it is, I wasted ours of my life on this game and I don't regret it! I don't understand why people hate this masterpiece! games like Pac-Man and Super Mario Bros SUCK, they have ugly graphics while these graphics are supreme!" -The Discord Bois

"The brilliance of this game cannot be fully sustained by the human mind, we are only experiencing what we can possibly comprehend, which is only a fraction compared to the paradise this game is. I broke the laws of physics to gain immortality and play this game 25 hours a day, this is what true happiness is. I live to play this game all the time, by the time I finish playing this game for the infiniteth time I will cease to exist as I no longer need to exist. I can not describe this absolute pure brilliance of a game in numbers, to be able to only give it five stars is a sin, you should play this game and elevate your plane of existence, would play again." -Hifar Taswell

"This is the second best game ever created, the best being Hong Kong 97 . I have over 700 hours on this amazing game. I have over 10,000 holes fallen in. This is just downright amazing. BUY IT NOW DIG IT UP FROM ITS HOLY LANDFILL!" -John Danner

"A masterpiece, no doubt about that. It's a pivotal point in the history of video games and a must play for all. E.T. the Extra-Terrestrial changes the player with a gripping story carried with solid and satisfying gameplay that further transforms the experience." -Dominic Kanssen

"THIS GAME IS THE BEST! THE MOST INTENSE AND FUN GAMEPLAY I'VE EVER HAD IN MY LIFE!!! DEFINITELY WORTH THE 1CENT ON EBAY!!!!!! YOU CAN GET A GIRLFRIEND WITH THIS GAME!! PLEASE PLAY IT IT'S AMAZING!!!!!!" -Jacob Smith

"This game is breathtaking, the story encapsulating and the flavor immaculate. This caused all of my world issues to stop in their tracks, I am not longer on my death bed. Thank you E.T." -Kevin Banks

"I lik the graphics they are so good that i would like a remaster on the new console generation so i can relive the memories of my past, i like how you fall in the holes and get taken to rome it is so epic would recommend 68/69" -Dayne Coker

"The attention to detail on this absolute masterpiece is un-rivaled. I would give it 6 out of 5 if i could..... Genius and beauty is the only way to describe it" -jay sofroniou

"This game was great, it was a masterpiece. Best game I ever played. Revolutionized the gaming industry should definitely be ported over to the Nintendo switch. I need this game back in my life" -Toon Link

"this game is fantastically programmed, a piece of true art, every line of code was made with heart and soul. This game shows the peak of human and alien evolution, in fact I wouldn't be surprised if this was made by aliens, so advanced and pretty!" -Dennis Nolan

"im just astonished a game with this great of a story and gameplay is THIS under rated. would absolutely recommend this game to anyone that loves a great game" -Agent Smith

"It's sad to say that a game from 1982 has a better story, gameplay, etc, then the Last of Us part 2. Rating E.T. a 5/5, wanting a sequel" -CraigieGaming HD

"Way better than the film that stole the plot and the title of this game. 10/10 muy delicioso" -SAADEM Barodo

"I think people just dont like this game because he's black. I'd give a 15/10" -Konspearosae

8:46 Nothing crashed. When you unplugged what I assume was your microphone, Retroarch automatically paused, you can see the pause symbol in the top right corner. As funny as 3D Tetris crashing would be, it never happened, as it is the perfect game.

Why you should play ET:
"This is not a game. It's a life changing experience. Before I played the game, I hit rock bottom. I was in pain and had a severe case of depression until I played this masterpiece. Jesus himself gave us this gift. The game is an immersive open world adventure that will make you feel like a kid again with its incredible world and environment. The atmospheric story will drag you in and leave you speechless. The impressive orchestral soundtrack is something that you will want to listen to for the rest of your life. The graphics are so good that the human eye has not evolved enough to see them at their best. And the controls and game-play are the definition of perfect. It's insane to think about how ahead of the time it was. Atari really knew what they were doing back in 1982. You would think that if something like this was from over 30 years ago, then we should be such an advanced society. But that is not the case, because humans are flawed. Companies such as Sony, Microsoft, or Nintendo are full of idiots that can't make any good games. The gaming industry crashed because we humans knew we didn't deserve this masterpiece. Howard Scott Warshaw was able to create perfection in just 5 weeks. When it was buried, New Mexico replaced Israel as the new holy land. I don't know what else to say about something better than perfection. ~/10" - Liam Curtin

"This game is THE ABSOLUTE BEST thing in existince! It is WAY better than the movie! It's an open world game where you have to find home, but it has so many amazing adventures and side quests along the way! You can get into intense battles with the people hunting you down, and help other E.T.'s to get home, too! The graphics and visuals are amazing, and the only music I listen too is the amazing soundtrack! Overall, this game is a must-play, and way underrated! 100/10!!!!" - Holden Ellis

"Still holds up beautifully to this day. The media will tell you that Super Mario Bros. saved the gaming industry from the crash of '83, but I tell you it was E.T. the Extra-Terrestrial. The game has no sense of direction; great for creating your own stories. A true sandbox. All while a timer looms overhead counting down, which is a deep metaphor for society. With a two-tone colour scheme, this game perfected minimalism before it became popular. I have spent countless days grinding this game, loving every second of it. This game didn't perfect its genre, it created it." - Arie Koning

"This video game changed my life, my father who has recently passed away after discovering the cure to cancer was assassinated. I was in a deep saddened state of depression, he left me with money and the house that I always loved but it just wasn't the same without my father. Recently my Uncle James left me with this game. It had a note attached to it saying "To my loving son, Payton - Love Dad". I spent days trying to get an Atari and when I finally got my hands on one it was at a large price of 200. I popped the game in and started playing. The media wants you to think that Super Mario Bros is the better game, but you don't get attached to it like you will to this 5/5." - Payton Sayles

"My great grandfather got me this game when it first came out and I thought it was absolute garbage. Now as an adult I replayed it, and I must say it's one of the best games out there. The story and gameplay are both just so good. I felt myself invested in the characters in such a short amount of time. Not to mention the difficulty is much harder than dark souls or any other game like it. Truly in a league of its own. Kids these days don't know what a good game is. They think games like the last of us or red dead redemption are good. But they are fools. Nothing comes close to E.T. and nothing ever will. Rest in peace grand papa. Thank you for opening my eyes to the beauty that is E.T." - Nathan Elder

"This game is legendary. It inspired me to confess to my crush in high school. It showed me how to make huge buildings to help make the future today. This game cured my depression and my dogs cancer, I love this game! I give this game a perfect 11/10. It showed me the basic format that every game in general should have! TAKE THAT bad word Breath of The MILD! It changed me from a cursed BOOMER to an educated person. "This game is breathtaking, the story encapsulating and the flavor immaculate. This caused all of my world issues to stop in their tracks, i am not longer on my death bed. Thank you E.T." - Kevin Banks

"I liek the graphics they are so good that i would like a remaster on the new console generation so i can relive the memories of my past, i like how you fall in the holes and get taken to rome it is so epic would recommend 68/69" -Dayne Coker

"The attention to detail on this absolute masterpiece is un-rivaled. I would give it 6 out of 5 if i could..... Genius and beauty is the only way to describe it" -jay sofroniou

"This game was great, it was a masterpiece. Best game I ever played. Revolutionized the gaming industry should definitely be ported over to the Nintendo switch. I need this game back in my life" -Toon Link

"this game is fantastically programmed, a piece of true art, every line of code was made with heart and soul. This game shows the peak of human and alien evolution, in fact I wouldn't be surprised if this was made by aliens, so advanced and pretty!" -Dennis Nolan

"im just astonished a game with this great of a story and gameplay is THIS under rated. would absolutely recommend this game to anyone that loves a great game" -Agent Smith

"It's sad to say that a game from 1982 has a better story, gameplay, etc, then the Last of Us part 2. Rating E.T. a 5/5, wanting a sequel." -CraigieGaming HD

"Way better than the film that stole the plot and the title of this game. 10/10 muy delicioso" -SAADEM Barodo

"I think people just dont like this game because he's black. i'd give a 15/10" -Konspearosea

Click readmore if you hate 3d tetris

We're no strangers to love
You know the rules and so do I
A full commitment's what I'm thinking of
You wouldn't get this from any other guy

I just wanna tell you how I'm feeling
Gotta make you understand

Never gonna run around and desert you
Never gonna make you cry
Never gonna say goodbye
Never gonna tell a lie and hurt you

We've known each other for so long
Your heart's been aching, but
You're too shy to say it
Inside, we both know what's been going on
We know the game and we're gonna play it

And if you ask me how I'm feeling
Don't tell me you're too blind to see

Never gonna give you up
Never gonna let you down
Never gonna run around and desert you
Never gonna make you cry
Never gonna say goodbye
Never gonna tell a lie and hurt you

Never gonna give you up
Never gonna let you down
Never gonna run around and desert you
Never gonna make you cry
Never gonna say goodbye
Never gonna tell a lie and hurt you

(Ooh, give you up)
(Ooh, give you up)
Never gonna give, never gonna give
(Give you up)
Never gonna give, never gonna give
(Give you up)

We've known each other for so long
Your heart's been aching, but
You're too shy to say it
Inside, we both know what's been going on
We know the game and we're gonna play it

I just wanna tell you how I'm feeling
Gotta make you understand

Never gonna give you up
Never gonna let you down
Never gonna run around and desert you
Never gonna make you cry
Never gonna say goodbye
Never gonna tell a lie and hurt you

Never gonna give you up
Never gonna let you down
Never gonna run around and desert you
Never gonna make you cry
Never gonna say goodbye
Never gonna tell a lie and hurt you

Never gonna give you up
Never gonna let you down
Never gonna run around and desert you
Never gonna make you cry
Never gonna say goodbye
Happy april fools!

Your security is my motto

With me there no viruses
Could enter your computer
Malware! Spyware! Trojan!
All gone forever!
I filter your junk mail
Monitoring WiFi, never fail!

Your security is my motto

Your virus security updated
Anti-phishing for safe browsing
And safe pay for secure e-shopping!
My security acts silently
So you can work efficiently

Enhanced performance is my motto

At the office lot easier
No Facebook! No games!

With twenty percent lesser staff
The company is shining

Securing your business and image

No print without permission
No stealing of data
And you work without any tension

[Chorus 5]
I am Proto
Preventing data loss is my motto

I reverse data loss
Saving you from your angry boss
I recover deleted files
Making it sure, that you always smile

This video has now surpassed the original and all the others on your channel. That means 3D Tetris is officially better than Tetris 3-D, Doom, anime, uncharted, god of war, final fantasy, minecraft, borderlands, outlast, skyrim, VR, no mans sky, beat saber, fallout 76, slime rancher and whatever your other videos are.
